AMENDMENT

Honorable Sir:

This is in response to the Examiner's Action dated August 5, 2002, received in the above-identified application.

Please amend this application as follows:

IN THE CLAIMS

Cancel pending claims 1 to 11, inclusive.

Please add the following new claims:

14. (New) A process for the production of an electrochromic coating on a substrate by cathode sputtering of a target in a coating atmosphere containing a noble gas and hydrogen ions, wherein at least one gaseous hydrocarbon is added to the coating atmosphere in order to reduce the blind charge of the electrochromic coating.
